

PROJET PEDAGOGIQUE

PLANNING DE LA SEQUENCE N°

PERIODE

NOMBRE DE SEANCES PREVUES : 7 / 8

GROUPE DE NIVEAU DE COMPETENCE : A1 ☐ A2 ☒ B1 ☒ B2 ☐

CLASSE(S) DE : Seconde BAC PRO / Première BAC PRO **NOMBRE D'ELEVES** :

ACTIVITE(S) LANGAGIERE(S) DOMINANTE(S) CHOISIE(S) : Expression orale en interaction.

TACHE COMMUNICATIVE FINALE A REALISER : Echanges brefs : demander un renseignement ou une information.

Echanges discursifs à dominante factuelle : s'assurer auprès de l'interlocuteur de la compréhension des informations transmises.

Echanges discursifs à dominante informative ou explicative : demander ou donner des descriptions explicatives, des instructions, informations sur des lieux, des objets, des faits ...

THEME/DOMAIN :

- S'informer (Institutions, références géographiques et historiques) et comprendre.

- Se cultiver (style architectural, design ...)

SUPPORTS : - Texte descriptif sur la Swiss Re Tower

- Enregistrement sonore (dialogue) sur l'Empire State Building

COMPETENCES COMMUNICATIVES : (Linguistiques, Sociolinguistiques, Pragmatiques)

- contenus culturels et lexicaux : (découlent des thèmes/domaines choisis) : le bâtiment, leur conception (volume, poids, taille, forme, style, coût...)

- outils grammaticaux (selon typologie discursive) :

☒ Dialoguer

☒ Décrire

☐ Raconter, relater

☐ Expliquer

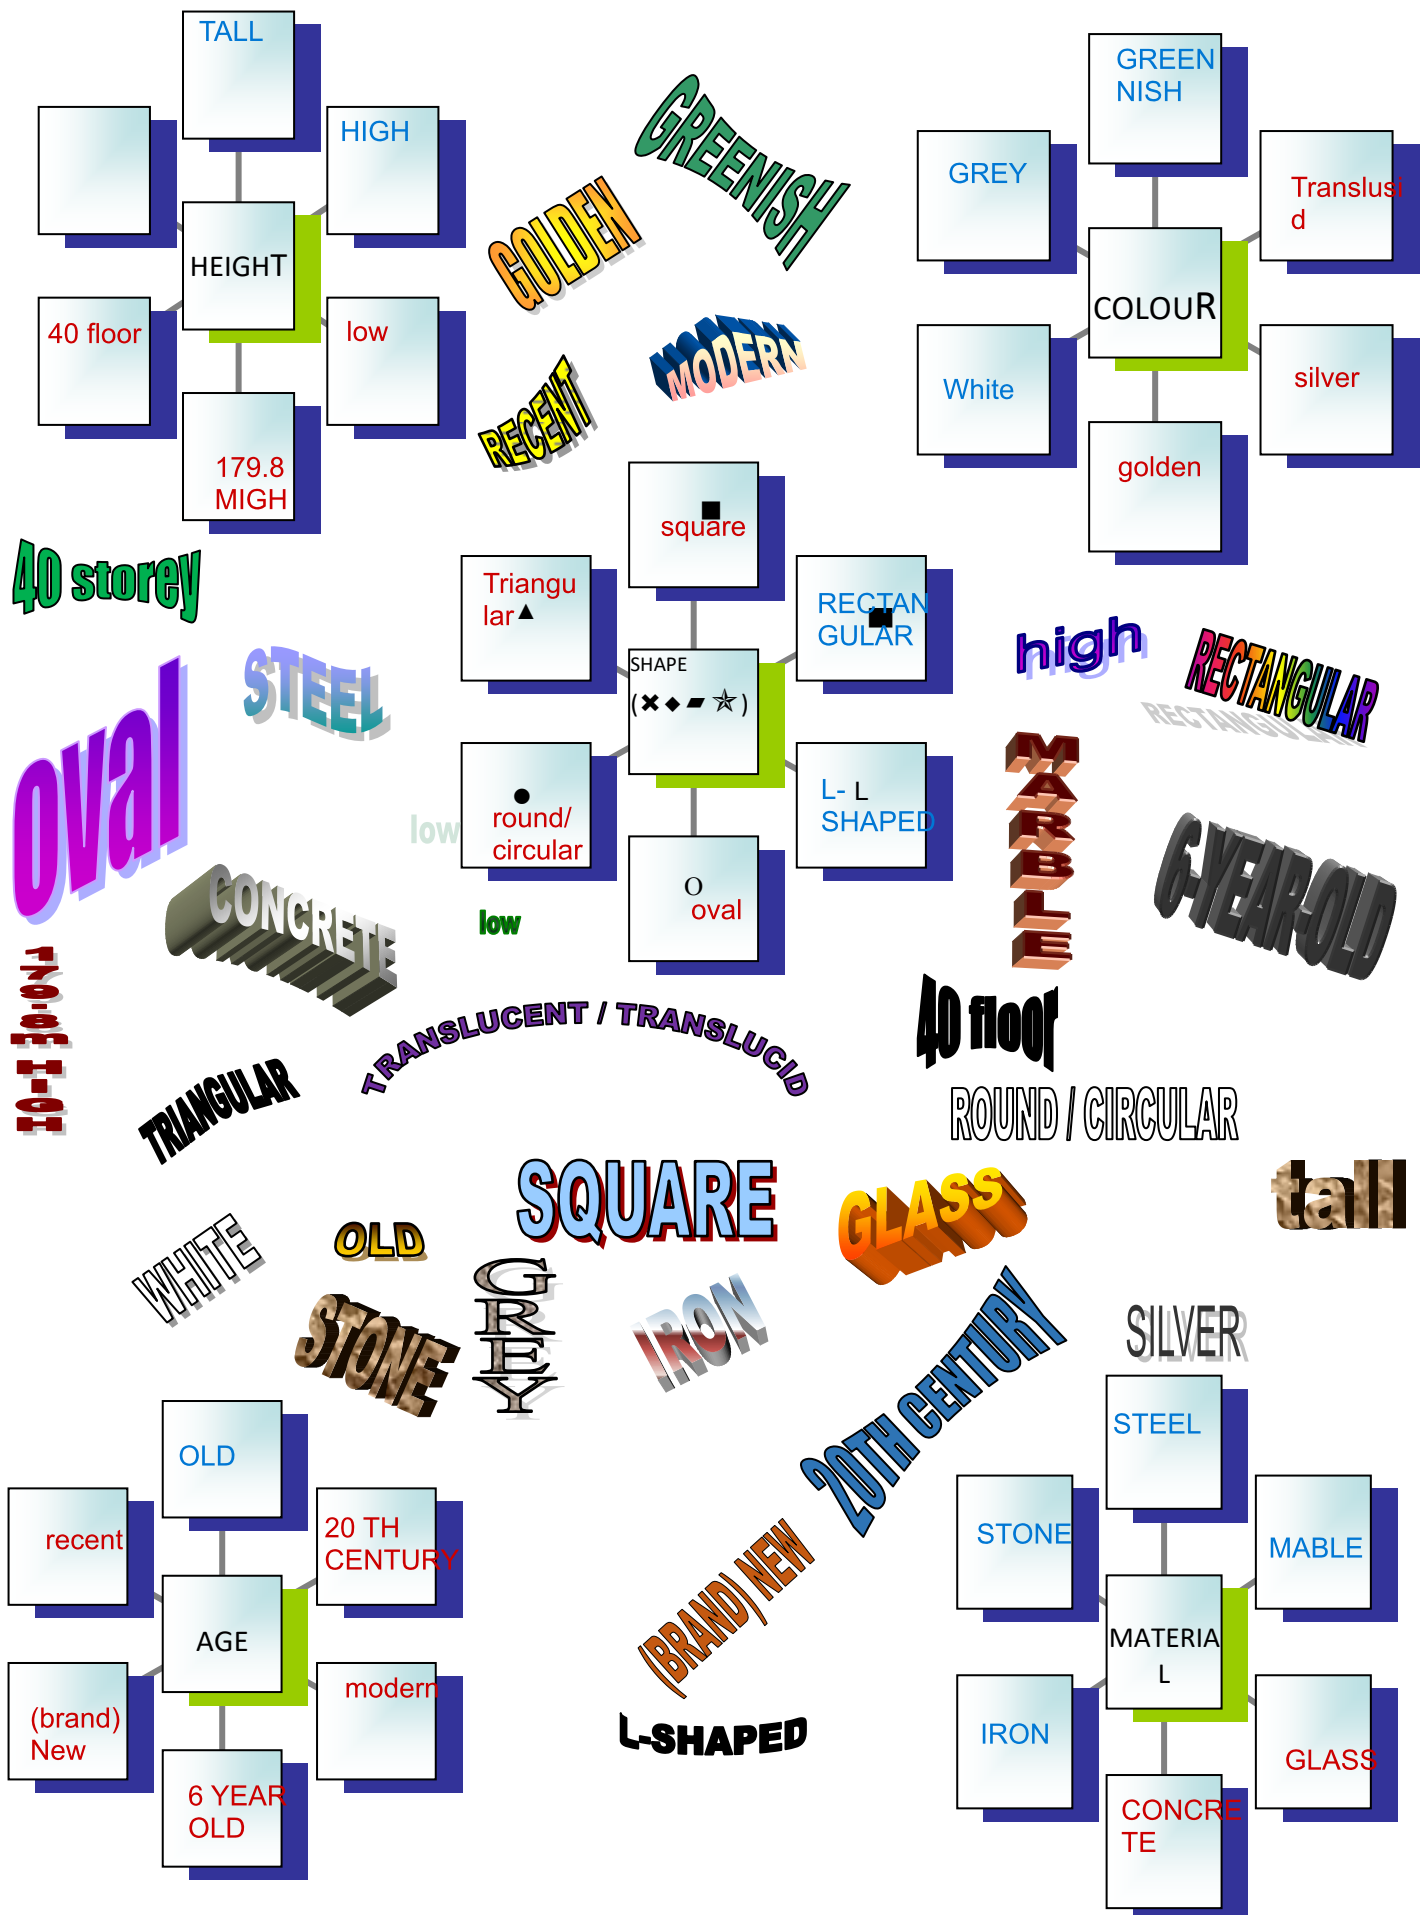

☐ Argumenter

SITUATION D'EVALUATION DE LA TÂCHE: *INDICATEURS - CRITERES*

Au choix - oral en interaction à l'aide des answer sheets.

- présentation d'un bâtiment de son choix à l'oral en continu à partir de ses recherches personnelles.

POWER (1)

THE SWISS RE TOWER (2)

London's most exciting new tower is called the Swiss Re Tower, but everybody calls it the Gherkin!

The tower

Londoners have different opinions of the Swiss Re Tower. Some say it is "spectacular" and "the best thing to be built in London for 50 years".

Others say it looks like a cigar, a zeppelin – or a giant suppository!

Construction

Over 500 workers of 26 nationalities worked on the building designed by British architect Lord Norman Foster. For 18 months, ten lorries a week transported glass from Switzerland to London.

The dome

The top of the dome is a glass lens, 2.4 metres in diameter.

It is the only panel of curved glass in the building.

Views of London

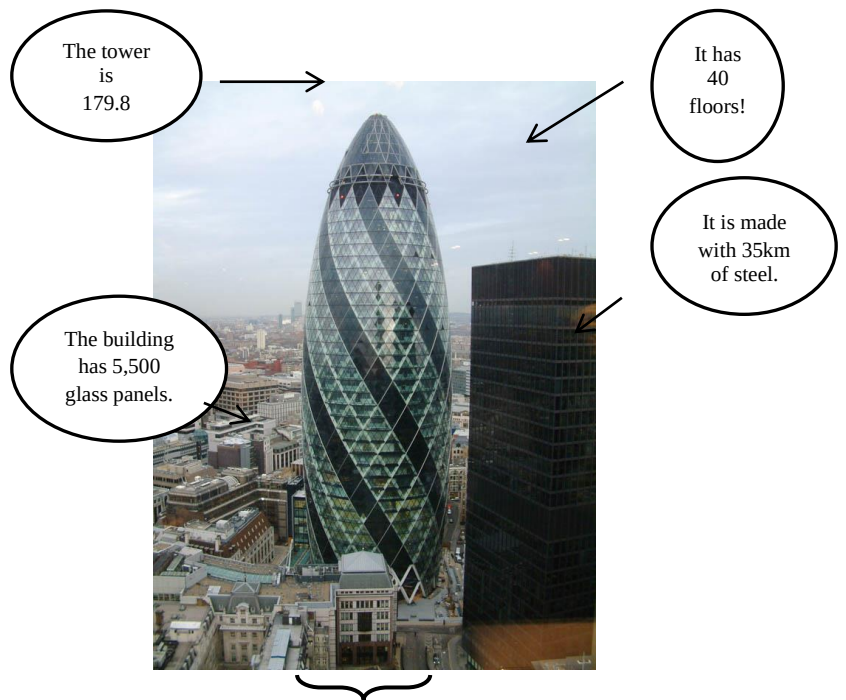

The dome at the top of the tower has an expensive restaurant for the rich executives who work in the tower. It has fantastic views of west London.

The Gherkin

It is an office building in the heart of the City, London's financial centre. It was financed by a Swiss insurance company called Swiss Re. The Gherkin replaced a building that was destroyed by an IRA bomb in 1992. From the Swiss Re Tower you can see the Tower of London, where the Queen's beekeepers work.

The base

The tower gets smaller at the base. This makes space outside for gardens, shops, a restaurant and a café.

Hello Marc,

Thank you very much for your letter. Next time you come to London, I'll show you the Swiss Re Tower. Here is a brief description of the building.

Marc Bouvry

:

- a. Surlignez le complément dans les énoncés suivants. ① London is a pleasant multicultural city.
② The Swiss Re Tower is an interesting oval building.
- b. Il est composé de : + + + NOM
- c. *Pleasant* et *interesting* sont des exprimant ... ☐ l'opinion ☐ un fait ☐ la possession
Ou sont-ils placés dans le groupe nominal ?
- d. Classez les adjectifs suivants selon leur connotation.
nice ❖ interesting ❖ beautiful ❖ lovely ❖ awful ❖ ugly ❖ amazing ❖ famous ❖ fantastic ❖ surprising ❖
spectacular ❖ unpopular ❖ well-known ❖ fine ❖ great ❖ wonderful ...
Appréciation **négligé** :
Appréciation **positive** :
.....
- e. Le 2^{ème} adjectif de chaque groupe nominal exprime ... ☐ l'opinion ☐ un fait ☐ la possession
- f. Si vous souhaitez utiliser plusieurs adjectifs pour décrire un bâtiment, il faut respecter l'ordre suivant :
Opinion + Taille (longueur) + Age + Couleur + Origine + Matière + Style + NOM
- g. Lorsqu'on veut qualifier un nom avec deux adjectifs d'une même catégorie, on ajoute entre les deux.
☞ A glass and steel building

5 Match the pictures with the appropriate descriptions. Watch the odd ones out.

Nelson's Column
London

Wembley Stadium
Greater London

Tower of London
London

10, Downing Street
London

Buckingham Palace
London

London Eye
London

- | | |
|---|---------------------------------|
| 1. A spectacular oval building ➤ | 5. A popular steel attraction ➤ |
| 2. A well-known square tower ➤ | 6. An exciting square shop ➤ |
| 3. A commemorating circular building ➤ | 7. A lovely round skyscraper ➤ |
| 4. A famous rectangular royal residence ➤ | 8. A famous wooden door ➤ |

6 Put the following words into the right order to make correct nominal groups.

- | | |
|---|---------|
| 1. building / tall / a / circular | ➤ |
| 2. a / bridge / red / long | ➤ |
| 3. tower / six-year old / a / fabulous | ➤ |
| 4. rectangular / an / enormous / skyscraper | ➤ |
| 5. low / a / building / concrete | ➤ |
| 6. lovely / old / castle / a | ➤ |
| 7. stone / huge / a / sculpture / wonderful | ➤ |
| 8. construction / a / steel / modern | ➤ |
| 9. statue / marble / famous / a | ➤ |
| 10. an / bridge / suspension / international orange | ➤ |

FAIT DE LANGUE

a. Observez les énoncés suivants.

① The Swiss Re tower is a gherkin-shaped tower.

② The Gherkin is a cigar-shaped tower.

b. Soulignez en rouge le groupe nominal (complément).

c. Quels éléments composent ce groupe nominal (complément) ?

..... + - + tower

.....

d. Le groupe adjectival est composé d'un et d'un terminé par le suffixe Les plus fréquents sont : storey + ed = ❖ colour + ed = ❖ fashion + ed =
frame + (d) = ❖ shape + (d) = ❖

⑦ Use the words to describe the buildings to make compounded adjectives. Watch the odd one out

spiral ❖ piano ❖ wave ❖ circular ❖ pencil ❖ rocket ❖ pyramid ❖ cigar ❖ cube ❖ rectangular ❖ iron ❖ helmet ❖
triangular

1.

2.

3.

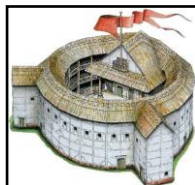

4.

5.

7.

8.

9.

10.

11.

12.

⑧ Make sentences with the following elements. Then put them in common to make longer sentences.

Sydney Opera House

Empire State Building

Guggenheim Museum

BT Tower

Statue of Liberty

Location	Sydney
Nationality	Australian
Type	Opera house
Style	Expressionist
Dedicated	October 20, 1973
Height	183m (5,490ft)
Materials	Concrete frame
Shape	Shell

Location	New York City
Nationality	American
Type	Skyscraper
Style	Art Deco
Dedicated	1931
Height	381m (1,250ft)
Materials	Concrete / Steel
Shape	Pencil

Location	New York City
Nationality	American
Type	Art Museum
Style	Modern
Dedicated	Fall of 1959
Height	33m (100ft)
Materials	Concrete / glass
Shape	A white ribbon curled into a cylindrical stack

Location	London
Nationality	English
Type	Telecom Tower
Style	Modern
Dedicated	1965
Height	189m (620ft)
Materials	Concrete / glass
Shape	Cylindrical

Location	New York City
Nationality	American
Type	Statue
Style	Classical
Dedicated	1886
Height	46m (151ft)
Materials	Copper-clad/steel
Shape	Woman

Lisez ces questions/réponses concernant la Swiss Re Tower et déterminez la notion attendue dans la réponse.

- | | | |
|---|------------------------------------|--|
| 1. How old is the building? | ⇒ It is <u>6 years old</u> . | → How old permet d'interroger sur |
| 2. How tall is the tower? | ⇒ It is <u>179.80m</u> tall. | → How tall permet d'interroger sur |
| 3. How heavy is the glass lens? | ⇒ It weighs <u>250kg</u> . | → How heavy permet d'interroger sur |
| 4. How fast can the lift go? | ⇒ It can go at <u>6m/s</u> . | → How fast permet d'interroger sur |
| 5. How deep are the foundations? | ⇒ They are <u>27m</u> deep. | → How deep permet d'interroger sur |
| 6. How high is the restaurant? | ⇒ It is <u>163m high</u> . | → How high permet d'interroger sur |
| 7. How long did it take to build? | ⇒ It took <u>2 years</u> . | → How long permet d'interroger sur |
| 8. How many glass panels are there? | ⇒ There are <u>5,500</u> . | → How many permet d'interroger sur |
| 9. How large is the Gherkin? | ⇒ It is <u>76,400 sq/m</u> large. | → How large permet d'interroger sur |
| 10. How often are the windows cleaned? | ⇒ They are cleaned <u>daily</u> . | → How often permet d'interroger sur |
| 11. How big is the building? | ⇒ It is <u>c/ft</u> . | → How big permet d'interroger sur |
